Index to Volume XXIV

Abbreviations:—'(P)' refers to the summaries of papers read at the General Meetings of the Association of Clinical Pathologists or at other meetings or symposia. '(L)' refers to letters to the Editor.

ABRAMS, E., ZIERDT, C. H., and BROWN, J. A.: Observations on *Aeromonas hydrophila* septicaemia in a patient with leukaemia, **491**
Acid esterase deficiency in Wolman's disease, histochemical detection in blood films, **617**
—— phosphatase activity of serum, colorimetric determination of, using adenosine 3'-monophosphate as substrate, **493**
Acid-base status, value in differential diagnosis of hyperparathyroidism from other causes of hypercalcaemia, **219**
ACLAND, J. D.: The interpretation of the serum protein-bound iodine: a review, **187**
——, and LIPTON, S.: Laboratory precision and diagnostic errors, **369**
ADAMS, J. F., and MCEWAN, F.: Activities of various cobalamins for *Euglena gracilis* with reference to vitamin B_{12} assay with Euglena, **15**
Adenoma, parathyroid, and hypercalcaemia associated with medullary carcinoma of thyroid, **851**
Adenomyosis, **378**
Adenosine 3'-monophosphate as substrate in colorimetric determination of serum acid phosphatase activity, **493**
Adenovirus type 21 infection, bronchiolitis obliterans, bronchiectasis and other sequelae of, in infants, **72**
ADINOLFI, M. *See* KOHN, J., and ADINOLFI, M.
ADNITT, P. I. *See* FRAYN, K. N. and ADNITT, P. I.
Adrenocorticotrophic hormone, dioxan separation in radioimmunoassay of, **649**
Aeromonas hydrophila septicaemia in leukaemia, **491**
Africa, Central, sickle-cell anaemia in, mortality study, 1968-71 (P), **768**
Agarose gel electrophoresis of serum lipoproteins on microscope slides, **83**
AGOSTONI, A. *See* MANNUCCI, P. M., STABILINI, R., *et al.*
AHMED, A. *See* MAINWARING, A. R., AHMED, A., *et al.*
ALAVI, K., KOHOUT, E., and DUTZ, W.: Two cases of scleroma in Iran **360**
Albumin Luarca in bisalbuminaemia in Spanish family, characterization of, **515**
——, serum level, effect of oestrogen and progestogen, **464**
ALDER, V. G. *See* GOLDIE, D. J., ALDER, V. G., *et al.*
ALDERSON, M. R. *See* POLLER, L., THOMSON, J. M., *et al.*
ALEXANDER, F., and CAMPBELL, W. A. B.: Congenital nephrotic syndrome and renal vein thrombosis in infancy, **27**
——, *See also* NAGI, A. H., ALEXANDER, F., *et al.*
Alkaline phosphatase assays, standardization of, **740**
Allografts, renal, serum proteins and fibrinolysis in, **124**
Amino acids, intestinal absorptive capacity for, maximal, sites of (L), **882**
2-Aminoethyl*iso*thiouronium bromide, normal red cells treated with, and red cells of paroxysmal nocturnal haemoglobinuria, electron microscope study of, **677**
Ampulla of Vater and duodenum, carcinomas of (P), **765**
Anaemia, haemolytic, induced by phenacetin, **537**
——, ——, microangiopathic, associated with malignant haemangioendothelioma, **456**
——, hypochromic, erythrocyte vitamin B_{12} levels in, **698**
——, iron deficiency, ascorbic acid status in, **694**
——, —— ——, erythrocyte porphyrin biosynthesis in, **336**
——, macrocytic, diagnostic value of serum folate assay in, **244**
——, ——, in North-East Scotland, 1965-70, laboratory study of (P), **764**
——, megaloblastic, nutritional, partial villous atrophy in, correction by folic acid therapy, **131**
——, pernicious, and rheumatoid arthritis, association between, serological study of (P), **764**
——, ——, human antibody unrelated to, immunofluorescent staining of rat gastric parietal cells by, **13**
——, sickle-cell, mortality study in Central Africa, 1968-71 (P), **768**
Analmatic clinical system in microbiological assay of vitamin B_{12} and folic acid in serum, **18**
ANDERSON, C. J. B. *See* MACGILLIVRAY, J. B., and ANDERSON, C. J. B.
ANDERSON, P. *See* MAINWARING, A. R., AHMED, A., *et al.*
Ankylosis of stapedio-vestibular joint (P), **765**
Antibacterial agents, recent, uses and control of (*A.C.P. Symposium*), **409**
Antibiotics, concentrations in inflammatory exudate, method for study of, **633**
——, *E. coli* in faeces resistant to, influence of employment with livestock on incidence of (P), **767**
——, growth in mycoplasma media, **286**
——, in sensitivity testing, standardization of methods, **779**
—— —— —— ——, United Kingdom survey (Sept. 1970), **773**
——, resistance of *E. coli* to, in urinary infections outside hospital, changes during 12-year period (P), **767**
——, ——of *Staph. aureus* to, changes in non-hospital population during 20 years (1949-69), **44**
Antibodies, complement-fixing, to EB virus, **801**
——, Rh, in causation and prevention of haemolytic disease of newborn (P), **479**
—— to colonic mucus in ulcerative colitis, thyroid disease and chronic asthma, **867**
——, white and red cell, association in serum (P), **764**
Antibody, Australia, detection by crossover electrophoresis, **86**
—— fractionation on Sephadex G-200 column for single-sample diagnosis of recent rubella, **547**
——, haemolytic, lymphoid cells producing, device for counting Jerne's plates in detection of, **759**
——, human, unrelated to pernicious anaemia, immunofluorescent staining of rat gastric parietal cells by, **13**
—— protein levels in maternal sera in Rh haemolytic disease (P), **768**
Antigen, Australia, and hepatitis, **394**
——, ——, detection and screening, **673**
——, ——, —— by complement fixation and by crossover electrophoresis, comparison of (L), **475**
——, ——, —— by crossover electrophoresis, **86**
——, ——, in fibrinogen and other fractions of plasma, **2**
——, ——, serological methods for detection of, comparison of, **8**
Anticoagulant control, British system for, validity with Thrombotest, **143**
—— therapy with coumarin and indanedione drugs, standardization of control with calibrated thromboplastin preparations, **460**
Anticonvulsant therapy, long-term, prevention and treatment of folate deficiency in, haematological findings and fits during (P), **767**
Antiglobulin conjugated with peroxidase as alternative to immunofluorescence for detection of antinuclear factor in serum, **501**
Antinuclear factor in serum, detection of, peroxidase-conjugated antiglobulin as alternative to immunofluorescence for, **501**
α_1-Antitrypsin, serum, deficiency of (P), **482**
Antiviral sera, preparation for immunofluorescence on infected tissue culture, **304**
Arthritis, rheumatoid, and pernicious anaemia, association between, serological study of (P), **764**
——, ——, mycoplasma isolated from, scanning-beam electron microscopy of, **808**
Asbestos bodies in lungs, relation of parietal pleural plaques to, **348**
—— in tumours (P), **481**
Ascorbic acid status in iron-deficiency anaemia, **694**
Association of Clinical Biochemists: Reports and Bulletins, **26**, **142**, **233**, **359**, **466**, **514**, **644**, **720**
Association of Clinical Pathologists: 86th General Meeting, **477**
—— —— —— ——: 87th General Meeting, **764**
—— —— —— ——: President's badge, **366**
—— —— —— —— Symposium on uses and control of newer antibacterial agents, **409**
Asthma, acute, 2,3-diphosphoglycerate in, **518**
Astrocytes, silver impregnation technique for, **578**
ATHAR, M. A. *See* PARTRIDGE, B. M., ATHAR, M. A., *et al.*
ATKINS, B. *See* WATKINS, J., ATKINS, B., *et al.*
Australia antigen and antibody, detection by crossover electrophoresis, **86**
—— —— and hepatitis, **394**
—— —— detection and screening, **673**
—— —— —— by complement fixation and by crossover electrophoresis, comparison of (L), **475**
—— —— in fibrinogen and other fractions of plasma, **2**
—— ——, serological methods for detection of, comparison of, **8**
AutoAnalyzer, equipment for linking on-line to computer, **170**
——, multi-channel (SMA 12/60), output of, acquisition on-line to Elliott 903 computer system, **661**
——, possible cause of serum sampling error with (L), **675**
——, SMA 6/60, adaptation of glucose channel for creatinine determinations in blood and urine, **88**
Autoimmune diseases, multiple, in family, **732**
Automation requirements in laboratory design (P), **766**
AYLETT, G. *See* SUTTON, R. N. P., AND AYLETT, G.

AZZOPARDI, J. G., and EVANS, D. J.: Malignant lymphoma of parotid associated with Mikulicz disease (benign lymphoepithelial lesion), 744

Bacillary dysentery, *Shigella sonnei* isolated in, colicine types of, in Hong Kong, 636
Bacteraemia in patients receiving human cadaveric renal transplants, 295
Bacteria, antibiotic sensitivity testing, standardization of methods, 779
——, —— —— ——, United Kingdom survey (Sept. 1970), 773
—— of seagull droppings in Jersey, 317
——, R factors in, asymptomatic urinary infection in antenatal patients due to (P), 477
——, salivary, quantitative studies on, 717
Bacteriocine typing of Klebsiella spp., 712
Bacteriology, clinical, laboratory services in, effect of centralization (P), 769
—— of chronic bronchitis (P), 482
——, quality control in, 790
——, screening tests in, 404
Bacteriuria, detection of, container for collection of urine samples for, 879
Bacteroides corrodens, isolation from infections in children, 117
BAILLIE, M. B. *See* WHITE, G. B. B., LASHEEN, R. M., *et al.*
BAIRD-PARKER, A. C.: The grouping of staphylococci and micrococci (P), 769
Baird-Parker's *Micrococcus* subgroup 3 (P), 770
BALDWIN, G. *See* THOMAS, M., and BALDWIN, G.
BALE, P. M., CLIFTON-BLIGH, P., BENJAMIN, B. N. P., and WHYTE, H. M.: Pathology of Tangier disease, 609
BANGHAM, D. R. *See* BROZOVIĆ, M., GURD, L. J., *et al.*
BARCLAY, G. P. T.: A mortality study of sickle cell anaemia in Central Africa 1968-1971 (P), 768
BARON, D. N., MOSS, D. W., WALKER, P. G., and WILKINSON, J. H.: Abbreviations for names of enzymes of diagnostic importance, 656
——, *See also* MOSS, D. W., BARON, D. N., *et al.*
BASSETT, D. C. J.: The effect of pH on the multiplication of a pseudomonad in chlorhexidine and cetrimide, 708
——: The sensitivity of *Pseudomonas pseudomallei* to trimethoprim and sulphamethoxazole *in vitro*, 798
BAUMANN, J. B. *See* STAHL, M., GIRARD, J., *et al.*
BEAMISH, M. R. LLEWELLIN, P., and JACOBS, A.: A rapid method for the detection of ferritin in serum, 581
BECK, P. *See* BLOOM, A. L., BECK, P., *et al.*
BECROFT, D. M. O.: Bronchiolitis obliterans, bronchiectasis, and other sequelae of adenovirus type 21 infection in young children, 72
BELFIELD, A. *See* ELLIS, G., BELFIELD, A., *et al.*
BENDINELLI, M. *See* PETRACCHI, G., BENDINELLI, M., *et al.*
BENJAMIN, B. N. P. *See* BALE, P. M., CLIFTON-BLIGH, P., *et al.*
BENNETT, N. B. *See* OGSTON, D., BENNETT, N. B., *et al.*
BENTINCK, B. *See* DOGGETT, R. G., BENTINCK, B., *et al.*
Beta-propiolactone in enzyme sterilization, 658
BETTELHEIM, K. A., DULAKE, C., and TAYLOR, J.: Postoperative urinary infections caused by *Escherichia coli*, 442
Biochemistry, clinical, introductory course in laboratory and research techniques based on renal function testing, 870
Biopsy, renal, demonstration of basement membrane in, by silver-methenamine on thin epoxy-resin sections, 669
BIRD, R. G. *See* ZUCKERMAN, A. J., TAYLOR, P. E., *et al.*
Bisalbuminaemia in Spanish family, characterization of albumin variant in, 515
BLACK, W. A., and HODGSON, R.: Search for Serratia, 444
——, ——, and MCKECHNIE, A.: Evaluation of three methods using deoxyribonuclease production as a screening test for *Serratia marcescens*, 313
Bladder, transitional cell carcinomas of, glandular metaplasia and mucin production in (P), 481
BLAGDON, J. *See* JENKINS, W. J., and BLAGDON, J.
BLIGH, P. CLIFTON-. *See* CLIFTON-BLIGH, P.
Blood, coagulase-negative staphylococci from, in neonates (P), 477
—— coagulation. *See* Factor VII
—— counting machines. See Coulter counter
——, creatinine determination in, adaptation of glucose channel on SMA 6/60 for, 88
—— eosinophils, DNA-labelling pattern of, effect of severe hypoxia after thymidine treatment (P), 478
—— films, histochemical detection of enzyme deficiency in Wolman's disease in, 617
—— grouping, dextran slide test for, 285
—— lipoproteins, quantitative method using cellulose acetate electrophoresis for, 837
—— lymphocytes, sensitized, demonstration of, 179
—— phenylalanine, estimation from dried blood spot using Guthrie test, 576
—— platelets, aggregation, induced by 5-hydroxytryptamine, effect of methysergide, St155 and tyramine in normal and migrainous subjects, 255
—— ——, ——, —— —— ——, —— of pre-incubation with 5HT and reserpine, 250
—— ——, ——, spontaneous, laboratory study of, 323
—— ——, survival time, normal, in idiopathic thrombocytopenic purpura, 621
—— pyruvate determinations, source of error in (L), 475
—— samples on filter paper in serological studies of respiratory virus infections in children, 41
——, storage, long-term, for transfusion using improved container for freezing red cells in liquid nitrogen, 685
BLOOM, A. L., BECK, P., GIDDINGS, J. C., and SWEETNAM, P. M.: Coagulation studies in haemophilic patients taking oral contraceptives, 23
——. *See also* GIDDINGS, J. C., and BLOOM, A. L.
BLUMGART, L. H. *See* KENNEDY, A., and BLUMGART, L. H.
BODDINGTON, M. M., SPRIGGS, A. I., MORTON, J. A., and MOWAT, A. G.: Cytodiagnosis of rheumatoid pleural effusions, 95
Body water, total, relation to surface area in normal and obese subjects, 234
Book reviews:
